

Reporting

Keep tabs on your business by using AroFlo's robust reporting tool to create customised reports from the data stored within your AroFlo site.

- Use our standard reports to get started
- Add fields and filters
- Group and sort data
- Export to Microsoft Excel or Word, or in CSV, PDF, HTML, or XML format
- Make custom reports available to your clients.

Use the links below to read about reporting, or select one of the links on the right to learn in your own way.
